## Mobile Banking Application Security Tips

## Mobile Banking Application Security

When using the Jonah Bank of Wyoming Mobile Banking Application, you should practice the same safe computing habits that you use when on your personal computer. As customers look to utilize enhanced mobile capabilities offered by their financial institutions, cyber criminals are also focusing in on mobile audiences. You will find in this document, tips on how to use your mobile device more securely.

### Mobile Security Tips

To help secure your mobile device and activity completed on your device Jonah Bank of Wyoming has the following recommendations:

- ◆ Use a Pin Lock or screen lock for your device, and stay away from easy pins like 123456
- ◆ Do not store your login credentials as a contact on your phone – use a password wallet instead
- ◆ Enable and know how to use features such as Find my Phone
- ◆ Should you lose your phone, report it to us and we can remove the device registration in our system
- ◆ Learn how to remotely wipe your device
- ◆ Turn off additional mobile features such as Bluetooth and geolocation services, even those setup in default settings, that are not being used
- ◆ Before downloading any app, read reviews about the app developer or company publishing the app and understand user app permissions that will be allowed once the app is downloaded
- ◆ Install Mobile Malware and antivirus protection
- ◆ Turn off geo location features
- ◆ Avoid connecting to unknown wireless networks. These networks could be rogue access points that capture information passed between your device and a legitimate server.
- ◆ Reset or wipe devices before they are sold or traded
- ◆ Keep smart-phone software patches and upgrades up to date
- ◆ Avoid links or software downloads from unknown sources
- ◆ Use the same precautions on a mobile device as you would use on a pc
